ewysh – Here, when you are not!

ewysh came from the idea of the unknown which is backed by personal experience. Some may say it is “tempting fate” but if you think like that, you may also think that “everything happens for a reason” and if that is the case, ewysh is simply fulfilling what we set out to do; send a message to loved ones at a time you expect to be around for but for unforeseen circumstances you may not be.

ewysh is an after life communications app.

At ewysh we enable our customers all over the world to deliver personal, tailored content. We are committed to making the future even better.

ewysh allows you to be there when you can't; Birthday's, wedding days or special occasions – ensure your messages are delivered to those that matter.

Let us not beat around the bush, death is inevitable for everyone, when this happens, is simply unknown but here at ewysh we want to help you remind your love ones that you care long after you left.

Memories Never Go Away

You are a parent or grandparent and have much loved children and grandchildren, you fully expect to see them grow up to be the wonderful people you always dreamed of. Over the years, like any family, you have made so many memories and as your child gets older, they too, remember pinnacle trips, holidays, days out, family gathering and in general fun times. Perhaps there are particular locations you shared a moment with them which you will both remember forever.

Take an Action

This may be the ideal spot to do a little video for a special birthday, graduation or even wedding that will be delivered to your loved one on that specified day, if you are no longer around to be there in person. Imagine the emotion that would come over your wonderful child at the surprise of receiving such a personalized video; just for them, on a day they did not expect to see you.

This is simply priceless!

Get To Know

Now let's go one step further. Imagine a family member you have heard lots about but have never met. Imagine if they had left a video message for you and that one day you received that video message. Now, this is not as crazy as it may sound. There will have been many of times where a family relative is expecting a child and an elderly family member may well be getting very old. Imagine if they could record a short video that is to be delivered to the child, perhaps, on their 16th to wish them a happy birthday.

Now You Get It

What a lovely gesture that would be and how amazing would that child feel, knowing that someone who they potentially never met or do not remember meeting has been able to wish them many happy returns.

This is simply priceless!
